

Navigation

1. Please help me plan a route from "Information Science Department Fourth Canteen" to "Xinghu Garden Faculty Canteen". (WHU)

Answer:

Based on the geographical data you provided, we have planned a walking route for you from the Fourth Canteen of the School of Information Science to the Xinghu Garden Faculty Canteen.

Route Overview

This walking route primarily follows the campus's north-south arterial road Xinghu 2nd Road and the east-west arterial road Qiushi Avenue. The total distance is moderate and passes through core academic and residential areas of the campus..

Detailed Navigation Instructions

Starting Point: Information Science Campus Canteen No. 4

- Location coordinates: [114.35279, 30.52961]
- Exit the canteen and walk northward.

Segment 1: Walk North along Xinghu 2nd Road

- Enter Xinghu 2nd Road, located near the eastern side of Canteen No. 4.
- Continue straight north along Xinghu 2nd Road.
- You will pass student dormitory buildings (e.g., Buildings 12 and 13).
- Proceed to the end of Xinghu 2nd Road, where you will reach a T-junction.
- The intersecting east-west road at this junction is Qiushi Avenue.

Segment 2: Walk East along Qiushi Avenue

- At the junction, turn right (east) onto Qiushi Avenue.
- Walk straight along Qiushi Avenue.
- You will pass the intersection with Xinghu 1st Road.
- Continue eastward for approximately 200 meters.
- Pay attention to the buildings on your left-hand side (north side).

Destination: Xinghu Garden Area

- You will see the Xinghu Garden Guesthouse.
- The Xinghu Garden Faculty Canteen is located immediately to the north of the guesthouse.
- Turn left from Qiushi Avenue into the Xinghu Garden area to reach the destination.

Key Landmarks

- Starting point: Information Science Campus Canteen No. 4
- Main roads: Xinghu 2nd Road, Qiushi Avenue
- Destination landmark: Xinghu Garden Guesthouse (Faculty Canteen located on its north side)

2. I am currently in the Xinghu Comprehensive Experimental Building and I want to get to the Wuhan University Library (Information Branch). Could you please provide me with detailed directions? (WHU)

Answer:

Based on the geographic information provided in the file, a detailed walking route is planned from "Xinghu Comprehensive Experimental Building" to "Wuhan University Library (Information

Branch)”:

Route Overview

- Starting point: Xinghu Comprehensive Laboratory Building
(located in the western part of the campus, near the National Cybersecurity Institute)
- Destination: Wuhan University Library (Information Branch)
(located in the northeastern part of the campus, near the sports field)
- Main roads along the route: Xinghu South Road → Qiushi 2nd Road

Detailed Step-by-Step Navigation

1. From the starting point to Xinghu South Road

- Exit the Xinghu Comprehensive Laboratory Building and walk in a southeast direction.
- You will first pass a short unnamed road or an area near Xinghu 3rd Road. Your goal is to merge onto the east–west arterial road, Xinghu South Road.

1. Walk east along Xinghu South Road (approximately 350 meters)

- After reaching Xinghu South Road, proceed eastward (to your left).
- Landmarks along the way: On your left-hand side, you will pass student dormitory buildings (such as Buildings 9 and 10). On your right-hand side (south side), you will pass the School of Resource and Environmental Sciences (Teaching Building No. 7).

2. Turn left at the intersection onto Qiushi 2nd Road

- Continue walking east along Xinghu South Road until you reach a clearly visible crossroads or T-junction. The north–south road at this intersection is Qiushi 2nd Road.
- Turn left at the intersection (heading north) onto Qiushi 2nd Road.

3. Walk north along Qiushi 2nd Road (approximately 250 meters)

- Proceed northward along Qiushi 2nd Road.
- Landmarks on the left: Information Science Campus Canteen No. 1、Xingkong Square
- Landmarks on the right: Information Science Campus Sports Field、Gymnasium area

4. Arrival at the destination

- Continue walking north. After passing the sports field area, look toward the front-right. The large building you see is Wuhan University Library (Information Branch).
- Turn right from Qiushi 2nd Road onto the small access path leading to the library (possibly the pedestrian walkway in front of the library) to reach the main entrance.

3. I'm currently in student dormitories 15 and 16 and want to get to the teaching building for class. Please plan a route that avoids congested areas during peak hours. (WHU)

Answer:

According to the file you provided, you are currently located at Student Dormitories Buildings 15 and 16, which are situated in the northwestern part of the Information Science Campus. Generally, the main teaching building area (such as Teaching Buildings No. 1, No. 2, and No. 4) is located in the southern part of the campus. To avoid potential congestion on major arterial roads during peak hours (such as Qiushi Avenue, which often has heavy pedestrian and vehicle traffic), I have planned a route that mainly uses pedestrian paths (footways) and internal campus passages. This route is relatively quiet and avoids through traffic.

Recommended Route: Avoiding Congested Main Roads

Starting point: Student Dormitories Buildings 15 and 16

1. Head south through the residential area

- After leaving the dormitories, do not take the main road on the west side directly.
It is recommended to first walk in a southeast direction, passing by Information Science Campus Canteen No. 4. This area consists of internal residential roads with relatively low vehicle traffic

2. Pass through the central green area

- Continue walking southeast, passing through the Cherry Blossom Garden (Forest area).
- This area contains multiple small footpaths (footways) and tree-lined walkways, offering a pleasant walking environment with no interference from motor vehicles.

3. March along the edge of the playground

- After passing through the green area, you will arrive at the north or west side of the Information Science Campus sports field.
- It is recommended to walk southward along the small path at the edge of the sports field. This route provides an open view and completely avoids the external arterial road, Qiushi Avenue.

4. Enter the teaching area

- When you reach the southern end of the sports field, you will directly enter the core teaching area.
- Directly ahead or on your left are Teaching Building No. 1 and Teaching Building No. 2 of the Information Science Campus.

Tips to Avoid Pitfalls

- Try to avoid: Qiushi Avenue. This is a major north–south arterial road that is usually crowded during peak hours with electric bikes, delivery vehicles, and students traveling to and from classes.
- Use landmarks: When you see large landmarks such as the library or the sports field, choosing nearby small paths to pass through is usually the most efficient and comfortable option.

This route takes approximately 10–15 minutes on foot, stays mostly within the campus, and is relatively safe and efficient.

4. I am currently located at Huyanglin Dormitory and would like to buy a cup of Luckin Coffee. Please help me plan a detailed navigation route. (SZU)

Answer:

Based on the provided geographic data of Shenzhen University Lihu Campus, a detailed walking route is planned from Huyanglin Dormitory to Luckin Coffee.

Navigation Overview

- Starting point: Huyanglin Dormitory (located in the western residential area of the campus)
- Destination: Luckin Coffee (located in the eastern part of the campus, near the College of Engineering)
- Estimated walking distance: approximately 650–750 meters
- Main landmarks along the route: Zhichang Gymnasium, Qiming Building (Library), Shouzheng Building

Detailed Walking Plan

Step 1: Depart from the dormitory and head east toward the teaching area

- Start from Huyanglin Dormitory (coordinates: 113.98427, 22.60057).
- Walk in a northeast direction. You will pass near Zhichang Gymnasium (C3) and Zhikuai Sports Field.
- Proceed eastward along the campus pedestrian path (the data indicates a long footway connecting the residential area and the library, footway ID: 1272389352).

Step 2: Pass the landmark “Qiming Building” (Library)

- Continue walking east for approximately 300–400 meters, and you will see the iconic campus building Qiming Building (Library) (located at 113.98745, 22.60325).
- Keep walking straight, passing along the southern side of the library. At this point, the library will be on your north side (left), and Wenhui Auditorium will be on your south side (right).

Step 3: Pass through the core teaching building cluster

- After passing the library, you will enter the core teaching area. Continue heading east, passing Shouzheng Building and Mingli Building in sequence.
- This section mainly follows Weiwen Road or its parallel internal pedestrian paths.

Step 4: Arrive at the destination

- Continue walking east for approximately 200 meters to reach the College of Engineering area.
- Luckin Coffee is located in this area (coordinates: 113.99054, 22.6032). It is adjacent to the southern wing of the College of Engineering building and near the College of Chemistry and Environmental Engineering (B1).

Tips

- If you would like to buy some snacks along the way, the area around Luckin Coffee is usually a high-traffic student activity zone.
- The destination coordinates (113.99054, 22.6032) are very close to the intersection of Nanke 1st Road and University Road.

5. I want to go to the Logging restaurant from the Poplar Grove dormitory for dinner. Please provide me with specific navigational information. (SZU)

Answer:

Based on the data you provided, I have compiled detailed navigation instructions for you from Poplar Grove to the logging restaurant.

Route Overview

- Starting point: Huyanglin Dormitory (Poplar Grove) — Coordinates: (113.98427, 22.60057)
- Destination: Logging Restaurant — Coordinates: (113.98503, 22.60326)
- Estimated time: Approximately 5 minutes
- Total distance: Approximately 300 meters

Detailed Walking Navigation

- Step 1: Departure and northbound movement. After leaving Huyanglin Dormitory, proceed to Weicai Road. Walk northward along this road, which marks the initial stage of your journey.
- Step 2: Turn at the landmark intersection. Continue straight along Weicai Road until you reach the area near Zhikuai Gymnasium. At this intersection, turn right onto Weiwen Road.

- Step 3: Arrival at the destination. Walk a short distance eastward along Weiwen Road, and you will see your destination — Logging Restaurant — directly ahead.

Landmarks and Tips Along the Way

To ensure you are heading in the correct direction, please note the following reference points:

- Red running track: On your way to the intersection, you will pass Zhikuai Sports Field, where the prominent red rubber running track serves as a clear visual confirmation point.
- Building appearance: The building housing Logging Restaurant is part of a larger complex, with a height of approximately 26 meters (based on the data you provided), making it relatively prominent in the surrounding area.
- Transportation option: If you decide to take public transportation instead, the “Poplar Grove” bus stop is located very close to your starting point.
